WARNING

CAUTION
• Adult supervision required.
• Keep unassembled parts out of child's reach.
• Do NOT allow child to walk or run while holding the Feeding Bottle.
• Do NOT use Feeding Nipples alone as a pacifier.
• Use ONLY Chicco NaturalFit Feeding Nipples with this product.
• Continuous and prolonged sucking of milk, formula, and other fluids can cause tooth decay.
• Microwave heating of bottle contents can cause uneven heating and is not recommended.

For Your Child's Safety
Read All Instructions

CAUTION
• Always check the temperature of the bottle contents before feeding.
• Inspect carefully before each use, especially when the child has teeth. Gently pull the Feeding Nipple in all directions to check for any damage. Discard Feeding Nipple at the first sign of damage.
• Make sure the cap ring is screwed tightly onto the Feeding Bottle to avoid leaking.
• Pull up on the Feeding Nipple to make sure it is correctly fitted into the cap ring.

Before First Use
Sterilize in boiling water for 5 minutes – Allow to cool completely and dry thoroughly.

Nipple Flow Rate
Check the flow rate on the side of the nipples:

Step 1
1 = Newborn Flow
2 = Medium Flow
3 = Fast Flow

Adjustable Flow Nipple
The flow can be adjusted on the Stage 2 nipple to suit the baby's needs. Turn the Feeding Bottle so that the desired flow rate number on the Feeding Nipple is positioned under the baby's nose.
SAVE THESE INSTRUCTIONS
