⚠WARNING: Avoid serious injury or death to the child. Never use your Fit360 Child Restraint without the **harness straps** PROPERLY in place. You must read and understand the **chest clip cleaning** instructions and the instructions in the User Guide. If you do not understand these instructions, DO NOT attempt to remove the **chest clip**, **STOP and call Chicco at 1-877-424-4226.** SS0053E_01

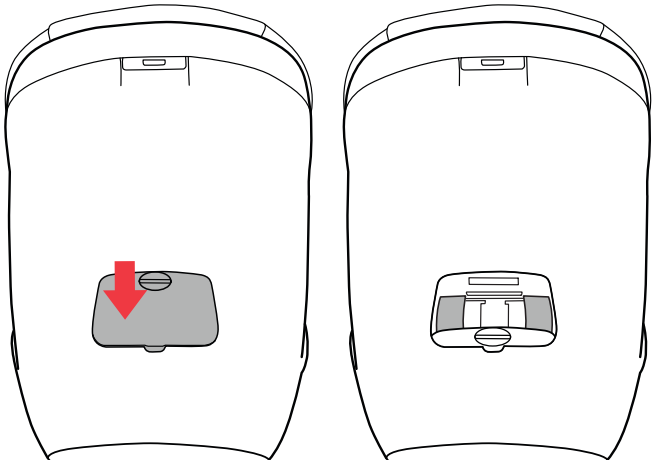

INSTRUCTIONS:

Cleaning the Fit360 Chest Clip

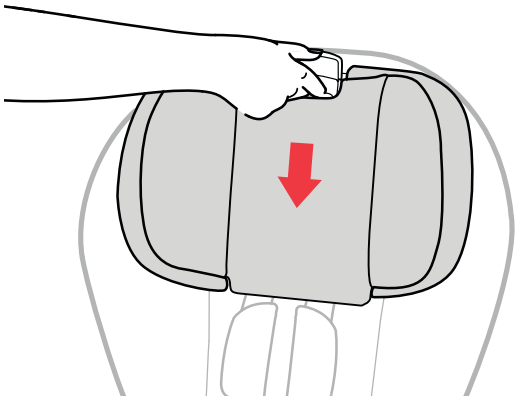

IMPORTANT: Please also refer to the instructions that came with your product.

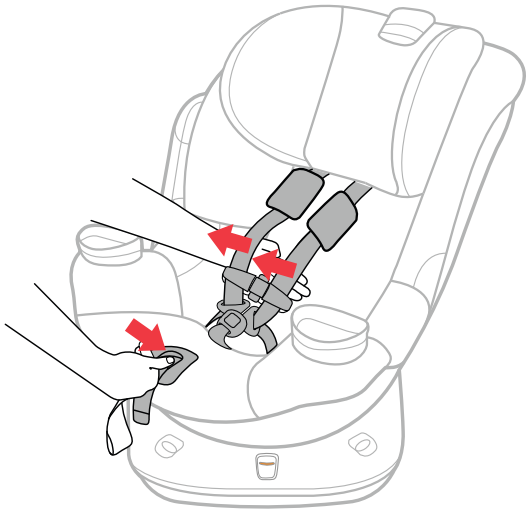

1 Turn the car seat into a side-loading position.

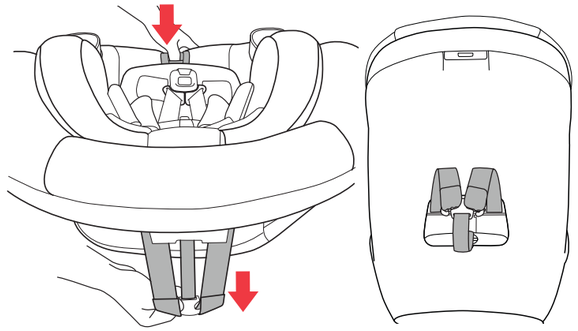

2 On the back of the car seat, slide the rear harness access panel down to the open position.

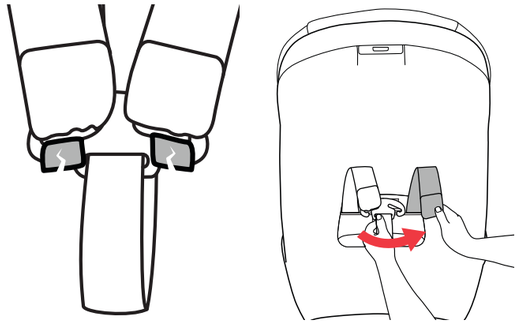

3 Lower the **headrest** to the lowest position.

4 Press the **harness strap adjustment button** while pulling the **harness straps** down to loosen them.

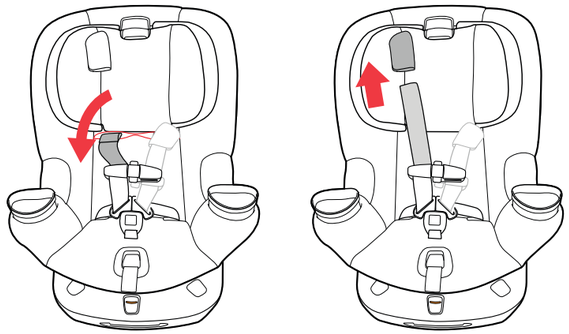

5 While pressing the **harness adjuster button**, pull the harness from the rear harness access panel to loosen the harness until the splitter plate is exposed.

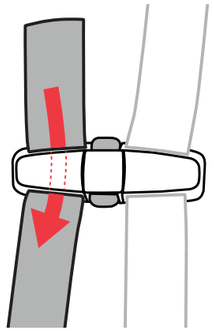

6 Carefully remove the quality check tape from the splitter plate. Remove one **harness strap** from the splitter plate at a time.

IMPORTANT: After the **harness straps** are removed from the splitter plate, slide the rear access panel up to hold the splitter plate strap in place.

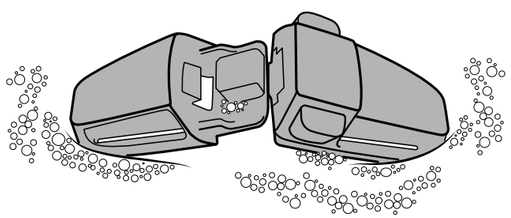

7 From the front of the car seat, pull the released **harness straps** out completely from the harness shoulder slots. Remove the **shoulder pads** if necessary.

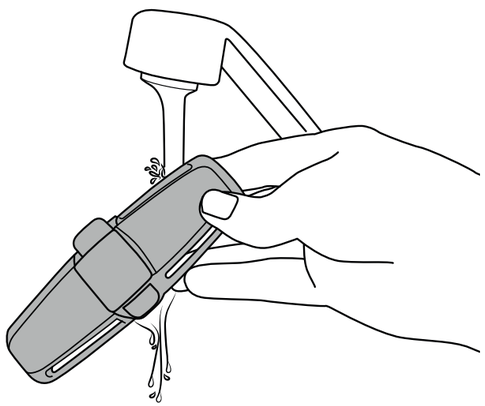

8 Remove the **harness straps** from the **chest clip**.

Cleaning the Chest Clip:

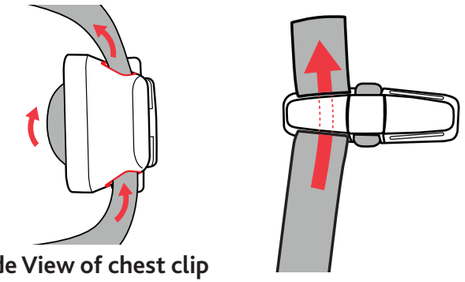

9 Place the **chest clip** in warm water with mild soap. Press the buttons while the **chest clip** is under water to aid in cleaning. The **chest clip** may be submerged up to 5 minutes.

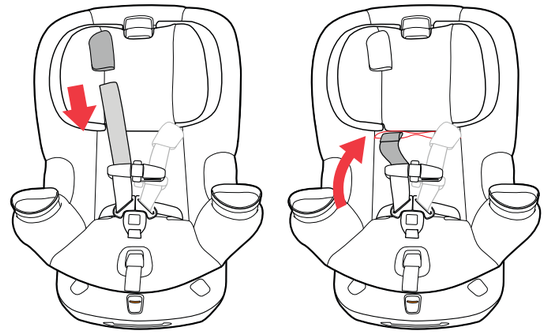

10 Rinse the **chest clip** in warm water. Be sure to press the buttons and separate both halves while rinsing to remove all soap residue. Allow the **chest clip** to dry completely, before attaching it to the harness straps.

Reinstall the Chest Clip to the Harness Straps:

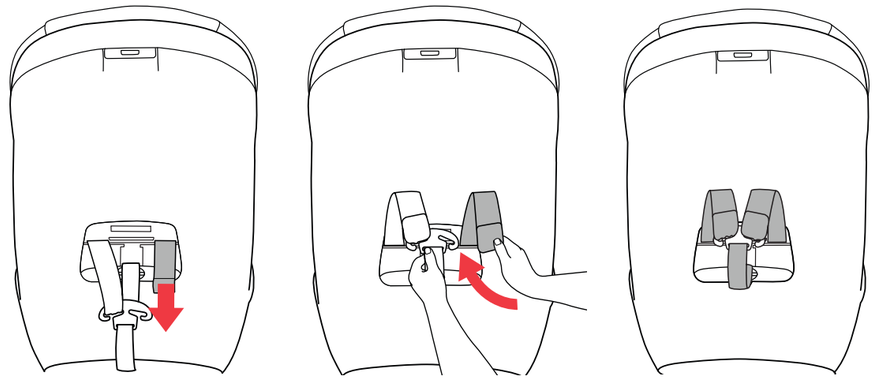

Side View of chest clip

11 Thread the **harness straps** one at a time through the openings on the back of the **chest clip**.

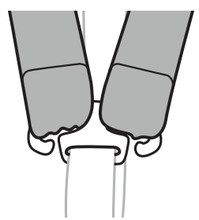

12 From the front of the car seat, reattach the **shoulder pads**. Feed the **harness straps** through the corresponding slots on the seat back.

IMPORTANT: Ensure that the **harness straps** are not twisted before moving onto the next step.

13 Pull the **harness straps** out of the access panel and reattach both **harness straps** onto the splitter plate. From the front of the car seat, pull the **harness adjuster strap** to tighten the harness. Once the harness and splitter plate are tightened back into the car seat, slide the access panel to close.

IMPORTANT: *The harness straps must be attached to the metal splitter plate exactly as shown below. Pull on both harness straps to make sure the harness has been correctly secured. Make sure the harness straps are flat and not folded or twisted.*

⚠WARNING: Avoid serious injury or death to the child. You must make sure that all harness components have been replaced correctly, so the seat can provide maximum crash protection. Pull on the adjuster strap and the shoulder straps of the harness and operate the harness after this replacement is complete. Make sure all straps are properly routed and secured. Make sure chest clip is oriented and installed correctly. If you have a problem, retry these instructions provided AND review the User Guide. If you still have problems, **STOP, DO NOT use the Car Seat, and call Chicco at 1-877-424-4226.**
