⚠️ WARNING

READ THESE INSTRUCTIONS AND KEEP FOR FUTURE REFERENCE FOR YOUR CHILD'S SAFETY AND HEALTH

- Adult supervision is required.
- Continuous and prolonged sucking of milk, formula, and other fluids can cause tooth decay.
- ONLY use ChiccoDUO™ nipples with this product.
- Inspect feeding nipple carefully before each use. Gently pull the nipple in all directions to check for any damage, especially when the child has teeth. Replace nipple at the first sign of damage. For hygiene reasons, we recommend replacing the nipple after 2 months.
- Check that the flow is suitable for the child's needs, paying attention to any difficulties in sucking or leakage of milk from the mouth.
- Never use feeding nipple as a soother or pacifier.

⚠️ WARNING

READ THESE INSTRUCTIONS AND KEEP FOR FUTURE REFERENCE FOR YOUR CHILD'S SAFETY AND HEALTH

- Always check food temperature before feeding.
- Microwave heating of bottle contents can cause uneven heating and is not recommended.
- This product can be sterilized using the appropriate equipment or by boiling for 5 minutes, avoiding contact with the metal walls of the container used.
- Some brightly-colored foods and drinks may alter the color of the nipple.
- Do not turn feeding nipples inside out, damage may result.
- Do not allow child to walk or run while holding the feeding bottle.
- Keep unassembled feeding nipples out of child's reach.

INSTRUCTIONS

BEFORE FIRST USE

- Sterilize in boiling water for 5 minutes or by using a sterilizer. Allow to cool completely and dry thoroughly.

BEFORE EACH USE

- Check nipple and replace at the first sign of wear or damage or every two months.
- To ensure optimal hygiene, always wash and rinse thoroughly before and after each use.
- Pull up on nipple to make sure it is fitted correctly on bottle cap ring.
- To ensure the nipple is functioning/venting properly, we recommend gently massaging the valve at the base of the nipple with your fingers before each use.

CLEANING

- Remove nipple from bottle before cleaning. Wash using mild soap and water. Dry completely before storing. Store in a dry place.

INSTRUCTIONS

CLEANING

- Regularly sterilize in boiling water for 5 minutes or by using a sterilizer. Allow to cool completely and dry thoroughly.
- Top rack dishwasher safe.
- Do NOT use bleach or any other harsh chemicals.
- When cleaning baby bottles and nipples, avoid the use of abrasive cleaners or brushes. We suggest silicone, sponge or gentle bristle brushes.

HEATING

- Place in a bottle warmer, under warm-to-hot running water or in a container of heated water.
- If using a bottle warmer, follow its instructions.
- Gently swirl contents to mix after heating.
- Test the temperature of the milk/formula on the inside of your wrist before serving.
